Lean Portfolio Decisions | synthetic baseline edition

Value Stream Scope

Portfolio Advantages

Flow Evidence

Learning Review

1 Value Stream Scope

1.1 Experiment Design

Lean Portfolio teams align work to lean portfolio decisions goals and record evidence before advancing the work item.

- Review the signal before changing the plan
- Keep ownership visible across handoffs

Stage	Evidence	Owner
Frame	Baseline	Lead
Test	Outcome	Team
Learn	Decision	Sponsor

2 Portfolio Advantages

2.1 Decision Rights

The Lean Portfolio method uses portfolio advantages to make the next decision observable and reversible.

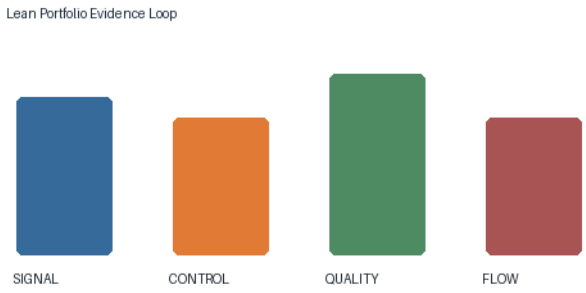
Teams capture context, compare evidence, and assign a named owner for the next review.

3 Flow Evidence

3.1 Assurance Measures

Lean Portfolio records a measurable result for flow evidence and preserves the decision context.

Check	Threshold
Trace	Evidence linked
Review	Owner assigned
Close	Action recorded



4 Learning Review

A closeout record states what changed, who accepted the evidence, and what remains open in Lean Portfolio.
